

## INNOVALT® T

INNOVALT® T is an environmentally friendly amphoteric surfactant blend designed for use in asphalt emulsion applications such as slurry surfacing, micro-surfacing, asphalt emulsion prime and cold in-place recycling applications.

---

### Application of INNOVALT® T

INNOVALT® T is used as an emulsifying agent in asphalt emulsion applications. This non-toxic and non-ecotoxic compound, used at rates of 0.4% - 2%, brings an excellent cure rate, which gives a faster return to operations. INNOVALT® T has excellent mixing and coating properties and no corrosion issues as it is worked at neutral pH and eliminates the need for pH control additives like HCl or NaOH. INNOVALT® T is suitable for use in slurry surfacing, micro-surfacing cold in-place recycling applications and asphalt emulsion prime.

### Packaging

INNOVALT® T is available in the following options:  
55-gallon drums (460 lb. (209kg) closed head poly drums)  
Other containers available upon request.

For further information, please contact Technical Service (details below) or Customer Service at 800-243-5052 or +1 609 366-1271.

Shelf Life: 730 days
